Accounting standards change and the pressure on the audit function in the bank has been elevated in recent years. This has put additional demands on management's role and responsibility in reporting to the board. This proactive webinar will teach bank staff how to better report accounting results to the board and senior management. It will include key numbers and ratios to monitor, a guide to priority board reports, specialized focus on earnings, pending new lease-accounting changes, and fair-value accounting.

In addition, this webinar will emphasize the audit function, including a brief review of the audit report, the management letter, the role of the audit and compliance committee, and training audit committee members.

Continuing Education: Attendance verification for CE credits provided upon request.
